

8th March 1977.

Dear Morgan Owner,

Here is your latest copy of the Morgan spares list. Contained herein is a list of commonly needed parts for your Mog. Listed along with the parts is the current price from the factory, in Pounds Sterling of course. In listing the parts I have used the typical factory terminology. For as one may have already discovered, if one does not use exactly the right phrase one will not receive the parts desired. The portion of one's order that is not understood may be completely ignored, if only misunderstood the wrong part shipped. The quantities listed per part would be the number used per vehicle.

1.	Unstrengthened Frame Front.	£ 27-37
1.	Strengthened Frame Front.	29-52
1.	Pair Stub Axles.	48-00
